ESSO PETROLEUM COMPANY, LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2012

1 ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

These financial statements have been prepared on the going concern basis, under historical cost convention, and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom, except with respect to the periodic revaluation of certain fixed assets as described below

The principal accounting policies which have been applied consistently across the Company from one financial year to the next are set out below

The Company is itself a subsidiary company and is exempt from the requirement to prepare group financial statements by virtue of section 400 of the Companies Act 2006. These financial statements therefore present information about the Company as an individual undertaking and not about its group.

1.2 Cash flow

The Company, being a subsidiary undertaking where 90% or more of the voting rights are controlled within the group whose consolidated financial statements are publicly available, is exempt from the requirement to draw up a cash flow statement in accordance with FRS 1.

1.3 Turnover

Turnover associated with the processing and sale of crude oil, natural gas, petroleum products and related goods and services is recognised when the title passes to the customer, which typically occurs at the point of delivery or point of receipt depending on contractual terms. Turnover from sales made by refining operations is typically recognised when the product is placed onboard a vessel, on discharge or into a pipeline depending on agreed contractual terms. Turnover is shown net of excise duties and Value Added Taxation (VAT).

1.4 Intangible fixed assets and amortisation

Goodwill arising on acquisitions of businesses and recorded in the balance sheet is amortised through the profit and loss account. The Company amortises such purchased goodwill by equal annual instalments over the purchased goodwill's expected useful life, which is typically between 10 and 20 years, being the directors' best estimate of the period over which the goodwill will be realised.

Purchased CO₂ emission rights are not amortised during the year as they are surrendered the following year after completion of an independent audit of the actual emissions.

ESSO PETROLEUM COMPANY, LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2012

1 ACCOUNTING POLICIES (continued)

1 5 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or valuation less depreciation. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Buildings	-	3.3% to 4% per annum
Plant & equipment	-	3.3% to 20% per annum
Leasehold land	-	0.5% to 6.66% per annum
Assets under construction	-	Not depreciated until brought into use
Freehold land	-	Not depreciated

Premiums paid on operating leases for land and buildings have been capitalised and included within land and buildings.

1 6 Revaluation of tangible fixed assets

Fixed assets are stated at cost except in the case of retail sites which is revalued on a 5 yearly basis by a member of the Royal Institute of Chartered Surveyors, with a review of the valuation made on an interim basis in accordance with FRS 15, 'Tangible fixed assets'. An annual review is undertaken where there is evidence of a significant change in the revaluation. An interim valuation was undertaken as at 31 December 2012 by CB Richard Ellis Limited.

1 7 Investments

Investments held as fixed assets are shown at cost less provision for impairment.

1 8 Operating leases

Rentals under operating leases are charged to the Profit and Loss Account on a straight line basis over the lease term.

1 9 Stocks and work in progress

Stocks and work in progress are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving stocks. Cost is calculated using the first-in, first-out method, including an appropriate proportion of overheads.

1 10 Deferred taxation

Provision for deferred tax is made in accordance with FRS 19, 'Deferred Tax'. Full provision is made for deferred tax liabilities net of deferred tax assets arising from timing differences between the recognition of gains and losses in the financial statements and their recognition for tax purposes.

Deferred tax assets and liabilities are not discounted.

ESSO PETROLEUM COMPANY, LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2012

1 ACCOUNTING POLICIES (continued)

1 11 Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the balance sheet date

Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction

Exchange gains and losses are recognised in the Profit and Loss Account

1 12 Research and development

Research and development expenditure is written off in the year in which it is incurred

1 13 Pensions

The Company is a participating employer in a funded defined benefit pension scheme in the UK, the assets of which are held in a separate trustee administered fund

Pension scheme assets are measured using market value. Pension scheme liabilities are measured using the projected unit actuarial method and are discounted at the current rate of return on a high quality corporate bond of equivalent terms and currency to the liability. The increase in the present value of the liabilities of the Company's defined benefit pension scheme expected to arise from employee service in the period is charged to operating profit. The expected return on the scheme's assets and the increase during the year in the present value of the scheme's liabilities arising from the passage of time are included in other finance income. Actuarial gains and losses are recognised in the Statement of Total Recognised Gains and Losses

Pension scheme surpluses (to the extent that they are considered recoverable), or deficits in full, are recognised and presented on the face of the Balance Sheet net of the related deferred tax

The Company is a participating employer in the Merchant Navy Officers Pension Fund and the Merchant Navy Ratings Pension Fund, both industry defined benefit schemes. The Company is unable to identify its share of the underlying assets and liabilities of these schemes on a consistent and reliable basis and in accordance with paragraph 9 of FRS 17 is therefore treating the schemes as defined contribution schemes. The pension cost charges represent contributions paid by the Company to the funds, net of any amounts recoverable from other group companies

1 14 Cash

As part of ExxonMobil's Treasury operations, the Company participates in an interest bearing bank account sweeping arrangement with another ExxonMobil group undertaking whereby the transactions cleared by the banks included in this arrangement are transferred to that undertaking on a daily basis. The net amount as at the balance sheet date is fully liquid with the Company retaining full ability to access the cash at any time. Interest is charged/credited on balances, including any overdraft positions, on commercially competitive terms
